Forecast For The United Kingdom
Issued by Met Office Exeter
at 1500 on Sunday 11 Jul 2021

UK Outlook for Monday 26 Jul 2021 to Monday 9 Aug 2021:
For the remainder of July and into early august, warmer and drier conditions are most probable overall as it looks likely that high pressure will remain close to the UK. There is also a continued risk of thundery inclusions into the south east and for spells of more unsettled weather in the north west. Temperatures also look to remain above average.
